Discover the ultimate solution for **privacy, productivity, and style** in modern workspaces with Kai, the innovative **meeting pod** by Workscale. Design. Designed with your needs in mind, Kai transforms open offices into efficient and tranquil environments. Whether for private calls, focused solo work, or collaborative meetings, Kai provides **comfort and quiet**, enabling you to perform at your best.

Crafted from premium materials, including sustainable wood, Kai combines luxury and functionality. Its **sleek design and customisable color options** - ranging from classic tones like white and black to premium finishes like oak slats - seamlessly integrate into any workspace aesthetic. Kai pairs **advanced ventilation, energy-efficient LED lighting, and modern connectivity** for practicality and style.

Offering **exceptional noise reduction of 30 dB**, Kai creates the ideal setting for uninterrupted work. With tool-free assembly and versatile accessories, such as height-adjustable desks and ergonomic seating, it's ideal for offices of any size.

Upgrade your workspace today, **explore the full range of Kai meeting pods**, and tailor them to your needs!

Ultra-quiet fans ventilation

ensure powerful cooling with maximum energy efficiency.

Effortless Assembly with Kai: A Game-Changer for Modern Workspaces

Say goodbye to complicated setups and tools thanks to **Kai**, a meeting pod designed for simplicity and efficiency. Powered by the innovative **Three Spine Click System**, Kai redefines assembly with a seamless, tool-free process that takes **less than 6 minutes**. Whether you're setting it up for the first time or relocating to a new space, Kai ensures a hassle-free experience every time.

Why Kai's Assembly Stands Out:

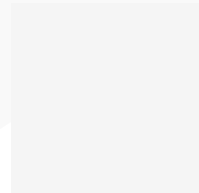

- **Tool-Free Assembly:** No screws or nails—just click the panels together for a secure, flawless finish every time.
- **Sustainable Innovation:** Crafted from wood-based materials and bioplastic dowels, Kai is metal-free and easy to recycle.
- **Flexible Design:** Easily disassemble and reassemble to adapt to changing workspace needs.

PREMIUM & STANDARD DESIGN

Standard Booth

Practical yet stylish, the Standard Design provides **timeless** appeal through classic finishes such as white, black, and grey. Built for functionality and durability, it's the ideal choice for offices that prioritise **simplicity and efficiency** without compromising on quality.

Premium Booth

For those who seek **sophistication**, the Premium Design offers refined aesthetics and **luxurious finishes**. With features like elegant **oak slats** and sleek, modern details, it transforms your workspace into a statement of style and professionalism. Perfect for creating an **upscale impression**.

SUSTAINABILITY AT THE CORE OF KAI

At Workscale.Design, sustainability shapes every step of our design process. With Kai, we combine timeless craftsmanship with **eco-conscious materials**, creating pods that reduce waste and minimise carbon footprints. Each booth is designed with **durability and responsibility** in mind, ensuring it serves its purpose while caring for the planet.

Eco-Friendly Materials

Wood takes centre stage in Kai's design, valued for its aesthetic appeal and environmental benefits. Sourced from certified forests, it absorbs CO₂, **reduces emissions**, and is **recyclable**—extending its lifecycle and impact. By limiting the use of metals and incorporating recycled materials, Kai represents a smarter, more **sustainable way to furnish** modern workspaces.

Low Carbon Footprint

Our Life Cycle Assessment (LCA) confirms Kai as one of the most sustainable office pods on the market, with a cradle-to-gate impact of just **256 kg CO₂e**—well below industry averages. This achievement is powered by our use of **76% eco-friendly fibre boards** and a commitment to sourcing materials locally, significantly reducing transportation emissions.

When you choose Kai, you're investing in innovative design that supports both productivity and the planet. Together, we can create workspaces that are as sustainable as they are functional.

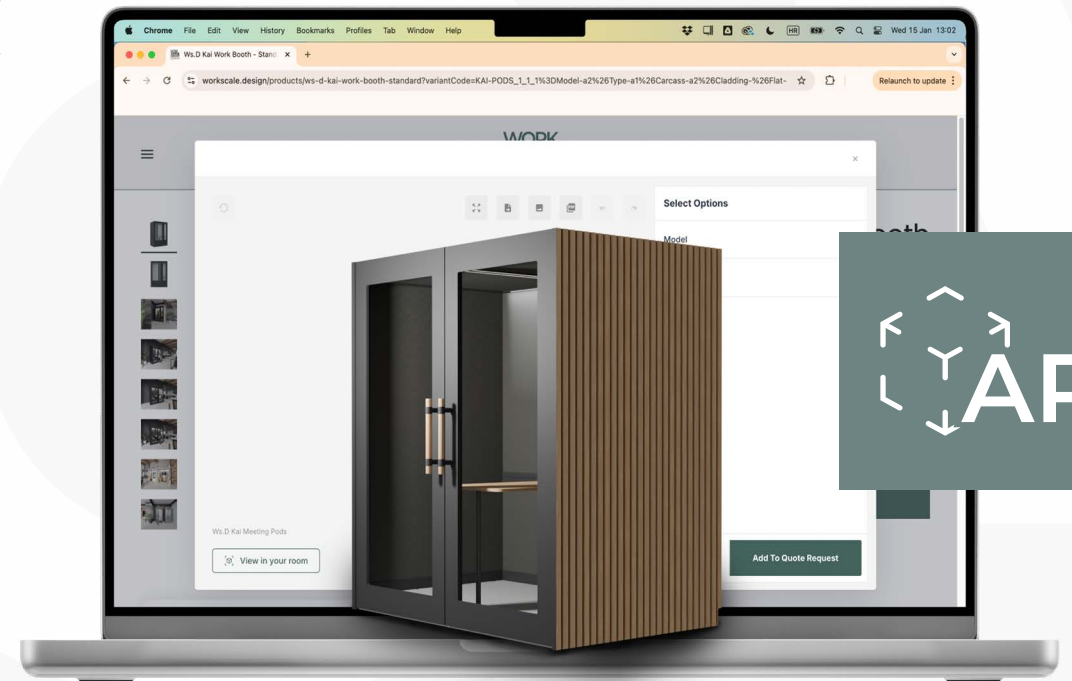

CONFIGURATOR

Click and Customise

Design your ideal workspace with Kai Meeting Pods using our **intuitive 3D Configurator**. Choose from versatile sizes—phone, work, double, and meeting booths—and classic or premium finishes to fit any office or commercial space. Whether for focused work or collaborative meetings, Kai adapts effortlessly, letting you visualise your custom solution in real time.

Our **AR feature** allows you to place your Kai pod virtually in your space using a device with a camera. Prefer design software? **Download 3D models** compatible with major tools to streamline your process.

Discover Kai today, and enhance both productivity and style in your workspace!
